DETAILED ACTION

1. The Applicants' amendment filed on January 18, 2006 was received. Claims 1-11 and 24-29 are withdrawn. Claims 12 and 18 are amended. Now, Claims 12-23 are pending.

2. Claim rejection(s) under 35 USC 112 in the previous Office Action (Paper No. 102905) is/are removed.

3. The text of those sections of Title 35, U.S. code not included in this action can be found in a prior Office Action.

Claim Rejections - 35 USC § 102

4. Rejection of Claims 12 and 18 under 35 USC 102(b) as being anticipated by Broer (US 4 718 748) is maintained because the rejection is adequately set forth in paragraph 7 of Paper No. 120905. Applicant's arguments have been fully considered but they are not persuasive. The focus argument related to the core patentability is discussed below.

Applicants primarily argue that Broer does not teach a polysiloxane having terminal groups of OH or NH₂. Although Broer is silent on the acrylate-terminated polysiloxane prepolymer is specifically prepared by a polysiloxane having terminal OH groups, the present claims are product-by-process claims, i.e., Borer's acrylate-terminated polysiloxane reads on Applicants' "prepolymer" and thus "polymeric composition". "Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process" In re Thorpe, 777 F. 2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

5. Claims 13-17 and 19-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Broer does not teach or fairly suggest the specific comonomers set forth in the instant claims.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
